

# How to establish a community fund at Dalia?

1

You, a concerned citizen, feel there is a topic or theme that needs to be addressed, such as sustainable agriculture.

2

You contact Dalia Association to set up a meeting, where you discuss the purpose of the fund.

3

You fundraise for the issue and then with the money you establish the fund.

6

According to criteria, the committee selects individuals/groups from the applications.

7

The grants are distributed accordingly.

5

The committee calls for grant applications.

4

Based on the Fund's theme, a committee is formed from the community and granting criteria is set.

"This is an illustration of an example fund at Dalia Association, steps may vary according to each funds' criteria".
